

THE UNITED STATES NAVAL WAR COLLEGE

GRADUATION CEREMONY

NEWPORT, RHODE ISLAND

June 10, 2022

HISTORY OF THE U.S. NAVAL WAR COLLEGE

Founded in Newport, Rhode Island on October 6, 1884, the U.S. Naval War College is the oldest war college in the world. Commodore Stephen B. Luce was the first President and organized the War College as a place to study the highest aspects of the military profession, defining it as “a place of original research on all questions relating to war and to statesmanship connected with war, or the prevention of war.” These foundations were built upon by Captain Alfred Thayer Mahan, second President of the College, who had originally been selected by Luce to initiate the course in Naval History. Of all the men who were to influence the institution in its early years, none was to have a more profound impact. Mahan’s views deeply affected such leaders as Henry Cabot Lodge and Theodore Roosevelt and through them and others helped shape the United States’ destiny at the turn of the century. Mahan’s Naval War College lectures, published as *The Influence of Sea Power Upon History, 1660–1783* (1890), gained him worldwide acclaim and first established the U.S. Naval War College as an internationally respected institution. Other early faculty members made pioneering contributions to hallmark areas of enduring interest for the College. Among them were Charles Stockton, who drafted the first international law code for naval warfare in 1898, and William McCarty Little, who developed the art of naval war gaming between 1886 and 1914.

Functioning continuously since 1884, except for brief periods during the Spanish-American War and World War I, the War College numbers among its graduates such distinguished naval officers as Admirals Sims, Spruance, King, Nimitz, and Halsey, in addition to many others who today are holding prominent positions.

The work begun more than one hundred years ago by Luce and Mahan continues today. As graduates well know, the curriculum is both demanding and rewarding. For the military professional, the unique education provided by the Naval War College is unrivaled. In recognition of the academic rigor and educational excellence of its program, the U.S. Naval War College has been accredited since 1991 by first the Commission on Institutions of Higher Education of the New England Association of Schools and Colleges and now the New England Commission of Higher Education to award a Master of Arts degree in National Security and Strategic Studies. In 2015 this accreditation was expanded to award two degrees. Graduating students in the senior level course now receive a Master of Arts in National Security and Strategic Studies while graduating students in the intermediate course receive a Master of Arts in Defense and Strategic Studies.

THE ACADEMIC PROCESSION AND REGALIA

For centuries, institutions of higher learning have dignified their ceremonies with an academic procession, a custom descending from the clerical procession. The procession is led by a marshal, followed by the student body and the academicians or faculty, attired in the robes prescribed for their respective degrees. Distinguished visitors and delegates follow the faculty, and last in the procession comes the president of the institution.

Each member of an academic procession ordinarily wears a cap, gown, and hood. In the procession today military faculty will not wear academic gowns. The earliest illustration depicts gowns worn at Oxford University that somewhat resemble cassocks worn by English teachers who found good use for the hood, or cowl, as protection against the weather. A uniform American system of academic heraldry displays the level of degree, the field of study in which it was earned, and the institution by which it was granted.

It is the hood which provides academic regalia its color and offers the most information about its wearer. The silk lining of the hood bears the color, or colors, of the degree-granting college or university; its velvet facing reveals the color assigned to each area of study. The Bachelor's gown is relatively simple, falling in straight lines from an elaborate yoke and having pointed sleeves. The Master's gown is slightly more elaborate and fastens about the wrist. The Doctor's gown is marked by velvet panels down the front and around the neck, as well as by three bars of the same material on the well-shaped sleeves. It is cut more fully and may be ornamented. The hood worn is three feet in length for Bachelors, three and one-half feet for Masters, and four feet for Doctors, with velvet trimming of two, three, and five inches in width respectively.

The edging, or facing, velvet of academic hoods indicates the area of study. The principal scholarly fields seen in the procession today include:

<i>Philosophy</i>	<i>Dark Blue</i>
<i>Arts, Letters, Humanities</i>	<i>White</i>
<i>Business Administration</i>	<i>Light Brown</i>
<i>Economics</i>	<i>Copper</i>
<i>Engineering</i>	<i>Orange</i>
<i>Law</i>	<i>Purple</i>
<i>International Affairs/Public Administration</i>	<i>Peacock Blue</i>

The American mortarboard, derived from the soft Oxford cap, is black. Its tassel, for holders of the bachelor's and master's degree, is usually black, while gold tassels are worn by holders of doctoral degrees and heads of institutions. The tassel is worn on the right side of the cap by undergraduates, on the left by holders of bachelor's and higher degrees.

THE HONORABLE CARLOS DEL TORO SECRETARY OF THE NAVY

The Honorable Carlos Del Toro was sworn in as the 78th Secretary of the Navy August 9, 2021. As Secretary, he is responsible for over 900,000 Sailors, Marines, reservists, and civilian personnel and an annual budget exceeding \$210 billion. His priorities include securing the training and equipment successful naval operations demand and addressing the most pressing challenges confronting the U.S. Navy and Marine Corps—China’s naval ambitions, climate instability, Covid’s ongoing impact, and

strengthening a naval culture of inclusiveness and respect.

Born in Havana, Cuba, Del Toro immigrated to the U.S. with his family as refugees in 1962. Raised in the Hell’s Kitchen neighborhood of New York City, he attended public schools and received an appointment to the United States Naval Academy, where he earned a Bachelor of Science degree in Electrical Engineering. Secretary Del Toro was commissioned as a Surface Warfare Officer upon his graduation in 1983.

His 22-year naval career included a series of critical appointments and numerous tours of duty at sea—including First Commanding Officer of the guided missile destroyer USS *Bulkeley* (DDG 84); Senior Executive Assistant to the Director for Program Analysis and Evaluation in the Office of the Secretary of Defense; and Special Assistant to the Director and Deputy Director of the Office of Management and Budget—where he helped manage the budgets of DOD, the U.S. Department of State, the Central Intelligence Agency, the Defense Intelligence Agency, the National Reconnaissance Office, and the Peace Corps.

After retiring at the rank of Commander, Secretary Del Toro founded SBG Technology Solutions, Inc. in 2004. As its CEO and President, he supported defense programs across a host of immediate and long-term Department of Navy issue areas, including shipbuilding, AI, cybersecurity, acquisition programs, space systems, health, and training.

He holds a Master’s in National Security and Strategic Studies from the Naval War College, a Master’s in Space Systems Engineering from the Naval Postgraduate School, and a Master’s in Legislative Affairs from George Washington University.

Secretary Del Toro and his wife have four children and a granddaughter.

The motto of the Naval War College is

"Victory through Sea Power."

The trident rising from the water symbolizes mastery of naval activities—its three tines are evocative of naval warfare on sea, air, and land. The pilot wheel atop the shield alludes to the mission of the college—education in naval warfare. The wheel's eight spokes symbolize honor, duty, leadership, command, strategy, tactics, logistics, and weapons. The laurel wreath represents achievement of the mission.
