CURRENT STRATEGY FORUM 2019

“The Agile Navy: Maximizing Maritime Power in the Information Age”

PROGRAM OF EVENTS

BACKGROUND:

The Current Strategy Forum for 2019 will be held on Tuesday, 11 June 2019 and Wednesday, 12 June 2019. The theme/focus will be “The Agile Navy: Maximizing Maritime Power in the Information Age”.

This Forum, which builds upon the research conducted through a series of workshops and conferences over the past 24-months, will consider issues related to the resurgence of “Great Power Competition” between peer and near-peer competitors around the globe and the role that maritime power will play in achieving success. Sponsored by the Secretary of the Navy and the Chief of Naval Operations, this event will bring over 500 invited guests, faculty members and students to the College’s Newport, RI campus to spend two days taking a detailed look at the role that the U.S. Navy must play in an era of global competition. Implications on force structure and operating concepts will be identified and discussed.
